John,

We can have a separate call with IDEM and HQ after our call with everyone.
(We have a call with HQ and R6 on 4/17, 11:00 am, CDT, for an hour, but it could be a little longer.)

We can brief you the status of the exemption issue and what we have discussed during the call with R6.

We can have a call with you either on April 17, 2:00 -2:30 pm, CDT or on 4/18 1:00 pm – 2:00 pm, CDT.

Please let me know which time zone is better for you or any other time you would prefer?

Jae

John,

After discussing with HQ and R6 about IDEM's participation, we thought this would be better to have an EPA-only call to discuss different aspects of the issue.

I wish you would understand this.

I will discuss with our management for any pre-discussion of our findings with IDEM.

Jae

Mr. Lee-

Is it possible to join the April 17th conference call between EPA Regions 5 and 6 and Headquarters discussing the Tradebe solids distillation system? Also, will it be possible to get a copy of the draft memo from Region 5 to Headquarters stating the Region's position on the issue?

Ruth,

I would like to let you know that we received response (mostly CBI) for the information request of the Desorption Units from Tradebe.

We have a meeting scheduled with Tradebe's representatives on April 12 at Chicago to discuss mass balance aspects of the units.

We are also scheduled a conference call with HQ and Region 6 on April 17.

If things are moving well, we might able to send a memo to HQ of the Region 5's position on this permit exemption issue by the end of April or early May.

Please let me know if you have any questions.

Jae

Subject: RE: Tradebe waste derived fuel issue

Jae,

As I've informed you before, any questions related to the SDS decision should be directed to John Naddy.

When you called earlier, you asked if Tradebe generates HW fuels from their fuel blending operations, and who utilizes those fuels. For clarification, my answers were in relation to their permitted fuel blending operations only. I want to ensure that you did not think I was discussing the SDS unit.

For future reference, please understand that I cannot answer any questions regarding the SDS units. I am not familiar with the SDS, nor was I involved in the original decision. I can only answer questions regarding their hazardous waste permit.

Thanks,

Ruth

Subject: Tradebe waste derived fuel issue

Ruth,

HQ came up a question that the IDEM's March 31, 2006 letter (attached) states that, in the second page, fifth paragraph, "If the unit was used to produce fuels or merely for treatment, the unit would require a HW treatment permit".

Since Tradebe generates hazardous waste derived fuels for the blending to send to off-site cement kilns, should they be required to have a treatment permit?

Any thoughts on this? This letter was referenced in the CAA permit.

Jae
